IN RE: ENRON ENERGY SERVICES, INC.	DOCKET NO. WRU-01-31-3567
---	---------------------------

ORDER GRANTING WAIVER

(Issued June 7, 2001)

On June 4, 2001, Enron Energy Services, Inc. (Enron Energy), filed a request with the Utilities Board (Board) for an extension of the filing date for competitive natural gas providers to file for a certificate pursuant to 199 IAC 19.14(2). The subrule requires that competitive natural gas providers that were transporting gas to customers in Iowa prior to April 25, 2001, the effective date of 199 IAC 19.14, file for a certificate by June 1, 2001. Enron Energy states that it intends to file the application but is unable to do so by the June 1, 2001, date. Enron Energy requests a waiver of the filing date until June 30, 2001.

The Board finds the request for a waiver of the filing date reasonable and will grant the extension. The Board finds that the waiver requirements of 199 IAC 1.3 have been met and no person will be prejudiced since the application filing will only be delayed. Some competitive natural gas providers did not become aware of the June 1, 2001, filing date in time to prepare an application by that date. The intent of the rule is to ensure all competitive natural gas providers in the state are certificated.

A reasonable extension will not affect that goal. Since Enron Energy has filed for the extension there should be no disruption of service to Enron Energy customers.

IT IS THEREFORE ORDERED:

Enron Energy Services, Inc., is granted until Monday, July 2, 2001, to file an application for a certificate as a competitive natural gas provider.
